

Australia's Story

Finding new ways forward for all of us and pathways to a collaborative sustainable future

with **SUSAN ALTSCHWAGER**

Susan is a powerful catalyst for personal and planetary change.

She experienced a unique connection to Ancient Wisdom of Australia over 30 years ago and she shares with others this wisdom through her open heart.

Her work is connecting to the web of life so that we can breathe connection back fully for individuals, families and community.

Susan is a Family Constellation facilitator, trainer and author. She has presented in Australia, Croatia, Germany, Norway and America.

Family Constellations

The Wisdom Keepers Way

The wisdom keeper teaches all things are related to each other. All healing and connection comes from the heart experiencing reconnecting, healing and sacred ceremony.

In this workshop, we will work with the Orders of Love principal of Family Constellations and look at some of the greatest forces that have shaped Australia's Story: Invasion, colonisation, convict settlements, immigrants, industrial expansion.

This is effecting individuals, families and communities today and we can see this through our health, relationships, social, economic and environment issues.

Individual and Group Constellations

1. Your Story and your connection to your roots.
2. Healing the collective trauma; your story is my story.
3. Colour, culture, religion — our individual story continues to separate us all. Stepping into the Wisdom Keeper Way, we will connect to sacred knowledge, insight and intuition guiding us to come together as a country.
4. Ancient wisdom is in the field waiting for our individual and collective acknowledgment. The field is waiting to bring through healing and insights for us to weave deep authentic connections back to life, bringing new opportunities for the full potential for individuals, families and communities.

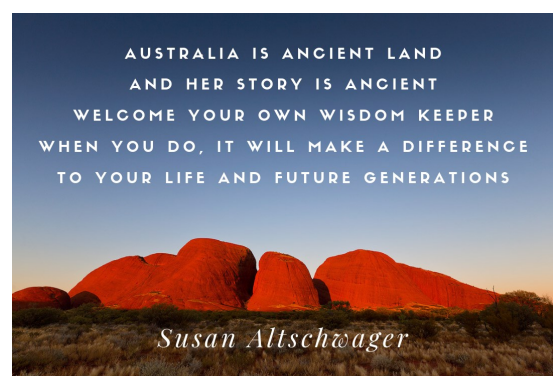

3 DAY WORKSHOP \$445

Adelaide: August 23, 24, 25

Melbourne: September 13, 14, 15
